

Quick Start Guide – Setup of the ExpressVote

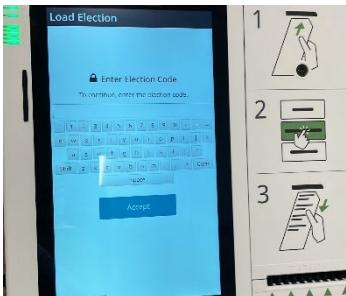

1. Unwind power cable and plug into power (wall or surge protector).

2. Using tabulator key with the black handle, unlock the back access compartment.

3. Press red button to power on ExpressVote and then close and lock access compartment, removing key. ExpressVote will begin power on procedure. It will not allow use if access compartment is not closed and locked.

4. When powered on, enter Election Code provided by Clerk.

5. The ExpressVote is ready for voting. Ensure the green power indicators are lit up on top left of ExpressVote, which indicate that it is plugged in properly and actively charging.

Quick Start Guide – Closing ExpressVote after Voting Ends

1. Using the tabulator key with the black handle, unlock the access compartment.

2. Press red button to begin shutdown process. Close and lock access compartment.

3. When prompted, press blue shutdown button. Reinstall accessible controller on back of ExpressVote.

4. Unplug ExpressVote and pack it back into the bag as it was originally stored.
